Gathering Center kitchen usage until further notice:

If you or a group are using the range, please only use the

ovens, the two middle and two right burners, and the left hood fan. Do not use the grill or the far two burners on the left side of the range.

We almost had a fire start on the connecting counter on Sunday and it is not safe to use the grill or the two burners on the left side of the range.

We are getting a quote on commercial hood fan and what else needs to be done to get the area safe again.

Please follow these rules until further notice.

Ambrosia Snapp 03/29/2019

Dear Burns Paiute Tribal Community:

I hope this letter finds you all well! Ha'o eh, Nu Ambrosia Snapp meh nani'a. I would formally like to introduce myself as a new employee of the Burns Paiute Tribe. I will be working as the Cultural Education Curriculum Liaison under Senate Bill 13.

"Senate Bill 13 was passed into law in the 2017 legislative session and calls upon the Oregon Department of Education (ODE) to develop a statewide curriculum relating to the Native American experience in Oregon, including tribal history, tribal sovereignty, culture, treaty rights, government, socioeconomic experiences, and current events."

I will be collaborating with Education Northwest, the Tribal Community, and other local education Liaisons to ensure success within the project. Additionally, there will be times allotted for input from the community regarding this project, times and dates will be provided in the future.

I am excited to be collaborating alongside the Tribal Community once again for a project that will reflect the battles and triumphs our elders and ancestors overcame in the past, and how it has shaped us into the resilient individuals we are today.

Sincerely,

Ambrosia Snapp

Non-lead Ammunition Test Day

Give non-lead ammunition a try for FREE!

Attendees will have a chance to win a \$25 gift card to Sportsman's Warehouse Hunters and Shooters: Why could this be important to you?

- 1. <u>Non-lead ammunition is extremely effective:</u> non-lead bullets offer great weight retention, consistent expansion, and exceptional accuracy for big game, or quick expansion and good fragmentation for furbearer or varmint hunting, all with no lead.
- Lead Fragmentation & Weight Loss: Conventional lead bullets lose weight on the
 way through an animal, leaving lead behind in the remains, and increasing the
 risk of accidentally poisoning scavenging wildlife or bringing home unwanted
 fragments in the processed meat.

Where: Burns Butte Sportsman's Club

Directions: The Burns Butte Sportsman's range is located west of Hines. Take Hines Logging Road (NF Road 47) for 3.6 miles. The range will be on the right.

When: May 11th, 2019 from 10:00 am to 3:00 pm

A selection of non-lead ammunition from multiple manufacturers will be available for the following cartridges:

.17 HMR
.22 Long Rifle
.223 Remington
5.56 Nato
.22-250 Remington
.243 Winchester

.25-06 Remington 6.5 Creedmoor .270 Winchester 7mm Remington Mag 7mm-08 Remington .30-30 Winchester .308 Winchester

.30-06 Springfield .300 Winchester Mag .300 Winchester Short Mag .338 Winchester Mag .375 H & H Mag .45-70 Government

Hunters are invited to bring their firearms and current ammo to compare with non-lead options for accuracy. A special demonstration will also compare terminal performance of conventional lead hunting bullets and non-lead bullets in water barrels and ballistic gelatin. If planning a hunt this year, come test different non-lead ammunition and get ready for success!
